DEMOCRATIC WARD TICKETS.

there was but one ticket in the field and they went through without any considerable protest, although some of the slate tickets were badly scratched. The caucuses moved along without moving as a part of the machine. In some of the wards the "gang" had avarice of foreigners by a system that enough respect for public opinion to place in nomination men who stand fairly well, but in other wards, notably the eighth, the nominations were made with a view to continue the present regime. Upon comparison with republican ward tickets the results of last night suffer. The nominations mean that notice is served that a desperate attempt will be made to hold the common council. The attempt will be engineered by the city hall gang with a determination springing from a desire to intrench itself in its present position. A republican council might pry into certain unexplained transactions and unearth misfeasances that would menace the party success in the fail elections. The prospect of the triumph, therefore, of the ward nominees of the republicans fills them with boly terror for the consequences. Wherever it was practicable and wherever there was not the ghost of a show to elect a straight-out democrat, the people's party candidates were endorsed. There is no good reason why the people should not prefer the republican candidates in every ward. If it shall be so, then the city hall will be purified and the present intolerant and impudent gang of political guerrillas will be

crowded out.

SHIPS OF WAR. How rapidly the new United States navy is growing can be judged from the number of first-class new warships which the country can have ready for ers already in Pacific waters. They are the San Francisco, the Baltimore, the Yorktown, the Boston, and the Charleston. The old wooden ships Yantic and Essex can be added, making seven in all. In two months this number could be increased by Admiral Walker's squadron of evolution, consisting of the flagship Chicago, the Newark, the Bennington and the Atlanta, and in addition Admiral Gherardi's squadron in the West Indies, the fine cruisers Concord and Philadelphia, and the old wooden ship Kearsarge. All these vessels except the wooden ships named are of the approved new steel naval vessel pattern.

NOMINATE THE BEST. THE HERALD has advocated an early and fearless nomination of the best men in the republican party, and it still urges the latter. It is the surest way to hold all its own votes and attract hundreds of others. Many of the laboring men of this city, who affiliate otherwise, have been wanting for a long time to enter the republican party, and thus help to turn out the unlawful money takers, but have seen ne opportunity when they could do it to so good an advantage as at the coming election. Wise nominations that mean business will bring them over. Such an exigency as there is now before them will permit of no repetition, and hence the opportunity should not be sacrificed. In the past the so-called available man has been talked up and put into the race regardless of fitness, which has proved to be an erroneous policy. The republican party of Grand Rapids has scores of men honorable and competent, and who would grace any office in the gift of the people. One of such should be selected for each of the offices to be filled this spring. It is high time there was a change, not simply in the city government, but in the style of the men to be that the best men in the party be named, and with them be defeated, than to gain victory with the "avail- the matter in hand. able" men and in the end be disgraced.

JEFFERSON'S DOLLARS.

Congressman Wesdock in the course of his speech in favor of free coinage said that money "good enough for Jefferson is good enough for us." It is strange how the democrats will persial in elevating Jefferson as an idol without spot, fault or blemish. Mr. Weadock might have said with equal reason that a beefsteak good enough for Jefferson is good enough for ne; or a pair of boots, if to Jefferson's liking. would be good enough for all others. The fact is that Jefferson never had anything so good as we have. The average American is content with nothing but the best. Jefferson's doilars may have been good, but our dol-

fine textile fabrics are produced by improved machinery, operated by wellpaid and happy workmen, and also of lightning express trains which flush like meteors from ocean to ocean over bright girders of home-made steel. Jefferson's dollars were confined to the rude and undeveloped industries of a country just crossing the threshold to a history unparalleled in the histories of the world. Our dollars are employed in gigantic commercial enterprises which stand like impregnable battlements between idleness and activity, and which represent the snews of unexampled prosperity, Our dollars feed, clothe and educate teeming millions of rence, Shanahan, Killean and Dikehappy children and make possible the maintenance of countless farms whose broad acres yield lavishly to the profit of their owners. Our dollars contribute to the establishment of edcuca-Taken as a whole the democratic tional institutions unsurpassed by any ward cancuses succeeded in carrying in the world; the upbuilding of out the slate, submitted by the city hall | churches; the expansion of commerce gang, with fidelity. CITY LIBRARY. The library has not received the proper attention to which it is entitled. Its books and surroundings have been most shamefully treated. There is no influence so potent in useful, practical education as is that of a well-selected and well-regulated library. We have added a few books from time to time. but we have not done what the people might have expected. We have not received our appropriations regularly, nor sufficiently, and even when we have received appropriations we have not always used them to the best advantage. The library money apportioned to us by the city has not been systematically nor judiciously applied to its intended good purpose. The library should receive our first attention. It should be made the monument of this city. A monument erected by the city and for the city. There is, however, no objection to one of our well-to-do citizens erecting a building to perpetuate his name.

CANADIAN PACIFIC STRIKE, The great strike on the Canadian Pacific railway may have a far-reaching effect, and will undoubtedly tend to restore-during its continuance-to American roads the traffic which is rightfully theirs. Since the completion of this great railway it has been a pronounced factor in Canadian politics. subsidized as it was to the extent of \$63,000,000 by the government, fostered action in a month's time, in case of | by English capitalists, and designed for war with England and Canada over the the two fold purpose of building up seal. Altogether there are five cruis- and inducing immigration to the great northwest, and furnishing a valuable route to England in case of serious disturbance with other powers. Its political nature has been so pronounced that it has swaved and measurably controled Canadian elections. In return for this power it has demanded, at the bands of the Canadian parliament, laws of its own framing, and has balked any legislation which, in its tendency, would curb any of the power or privileges deemed by its management necessary to its prosperity. Not content with the exclusive privileges granted at home it has stretched its lines and feeders into many of the princips' in the United States. and has everywhere proved an unmerciful and grasping foe. The servants of this great corporation have been always at its mercy, creatures of its will, victims in its toils. That they now rebel and seek by striking to put themselves on a level with like servants of other railways need cause no surprise. That they will win in the unequal struggle all will hope for, but none can prophesy. With us in the states everything which might curtail its power or relegate it to Canadian territory should command our most ardent support. True it is a factor in the competition of American railways and for awhile will tend to the lowering of freights, but once it obtains the control it so evidently seeks it will seek to do here as it has in Canada, exact the last ounce of flesh for every con-

DEMOCRATIC tactics is once more exemplified in the action of the Iowa house, in tabling the Gatch local option bill. "Place us in power," they said, "and we will abolish slavery, enact a homestead law, revise the tariff, correct civil service abuses and establish an era of economy unprecedented in the history of the nation." Not one of these measures was enacted by a demonominated for offices of trust. Better cratic congress, nor will the present iniquitous prohibition law of Iowa be repealed until Iowa republicans take

cession now wrong from it.

"DEMOCRACY must rest for safety on the education of the people," so said Jefferson. True enough; but the number of accomplished rascals now in ward politics, not to speak of jails and penitentianes, shows that the education in its rank and file must be something more than mere book learning. It must extend to morality as well.

Avoruga rebellion has broken out in India. secure it. Journalism is not altogether without its honors. Bert Hall of The Democaat, an enterprising reporter, was nominated for alderman of the Third

Joseph Haworth has had a very successful tour this season. When leading man with the late John McCullough he used to nightly share the honors with that lamented star. This season he has eclipsed all previous successes. In "St. Marc," E. L. Davenport's ro-mantic drama; Booth's version of "Ruy Blas," and Henry Irving's succes, "The Bells," he has been accounted one of the most natural and intensely realistic actors on the American stage. Mr. Haworth will play at Powers' next Monday, Tuesday and Wednesday evenings, and the plays mentioned will be given in the order stated.

The sale for Rhea's engagement opened briskly at Powers' yesterday. Tomorrow evening and Saturday after-noon Rhea will appear in her new drama, "La Czarına," which seems to be the most popular production with theater-goers that she has yet put upon the stage. On Saturday night Rhea will present a comedy entitled "Goswhich is said to represent something satirical about inquisitive and talkative women.

The Roney Concert company will render an admirably selected program in the Fountain street Baptist church this evening. The company is composed of five artists who are noted for their accomplishments.

Abbott and Teal's company will present "Niobe" at Powers' a week from tonight. This merry comedy was most favorably received in the eastern cities.

"Cruiskeen Lawn," which wins the favor of the patrons of Redmond's at every performance, will be given a matinee representation today.

"Crazy Lot" is the name of a comedy which will open at Redmond's next Sunday evening. The sale of seats will open today.

WHAT A CAKE WALK IS. Grand Rapids, March 23,

Editor HERALD-Will you kindly inform me through the valuable columns of your paper just what a cake walk is. It seems to be a popular affair, but I and a number of my friends must confess ignorance.

Very respectfully,

CHARLES MORTON. [During the days of slavery, it was a custom among the slaves to compete in couples for a ring which had been baked in a cake. The competition was usually held in some large hall or room where the dusky swains and their Dinahs, dressed in their finest raiment, repaired, and arm in arm walked about the room. The compement. tition consisted in grace of movement, sgility and manners, and to the couple who combined to the greater degree these qualities, after a fair test, the Judges who had been chosen awarded the ring. The cake had no special significance. The object was purely charitable. As indulged today much the same rules are observed, but the cake is made the prize. - Ep. 1

AMSTERDAM, March 23.-The loss of life by the fire which destroyed four uses on the Keisergracht canal Tuesday was larger than at first reported. Five persons were killed and twenty were injured. Seven of those who were injured are in a critical condition, and but faint hopes are entertained for their recovery. The fire was caused by the expiesion of a barrel of benzine.
